Replaces: New

Job _____ Designer _____ Contact _____

The Snow Sensor 095 is an aerial mounted sensor that detects falling snow and allows a tekmar Snow Melt Control to automatically start the snow melting equipment. System stop is provided by the control's timer or by manual disable. The 095 mounts to a nominal 1/2" (16 mm) metal or PVC conduit or pole. The 095 is well suited for adding automatic start to an existing snow melt system.

Specifications

Snow Sensor 095 Aerial Mounting	
Literature	095_C, 095_D
Packaged weight	0.4 lbs (180 g)
Dimensions	1-15/16" H x 3-5/32" O.D. (50 H x 80 O.D. mm)
Enclosure	White PVC plastic, UV stable, NEMA type 1
Operating range	-40 to 122°F (-40 to 50°C)
Compatible equipment	tekmar Snow Melting Control 653, 654
Warranty	Limited 3 Year (See 095_D for full warranty)

Energy Saving Features

- Automatic snow detection

Additional Features

- UV Resistant
- Mounts to 1/2" Metal or PVC Conduit

SPECIAL REQUIREMENTS

This sensor must be used with a tekmar Snow Melting Control 653 or 654.
